BLACK BAY
INSHORE ARTIFICIAL REEF
SITE LOCATION PLANNING

Prepared for

Office of Fisheries
Louisiana Department of Wildlife and Fisheries

June 9, 2014

Scale 1:36,000

KEY

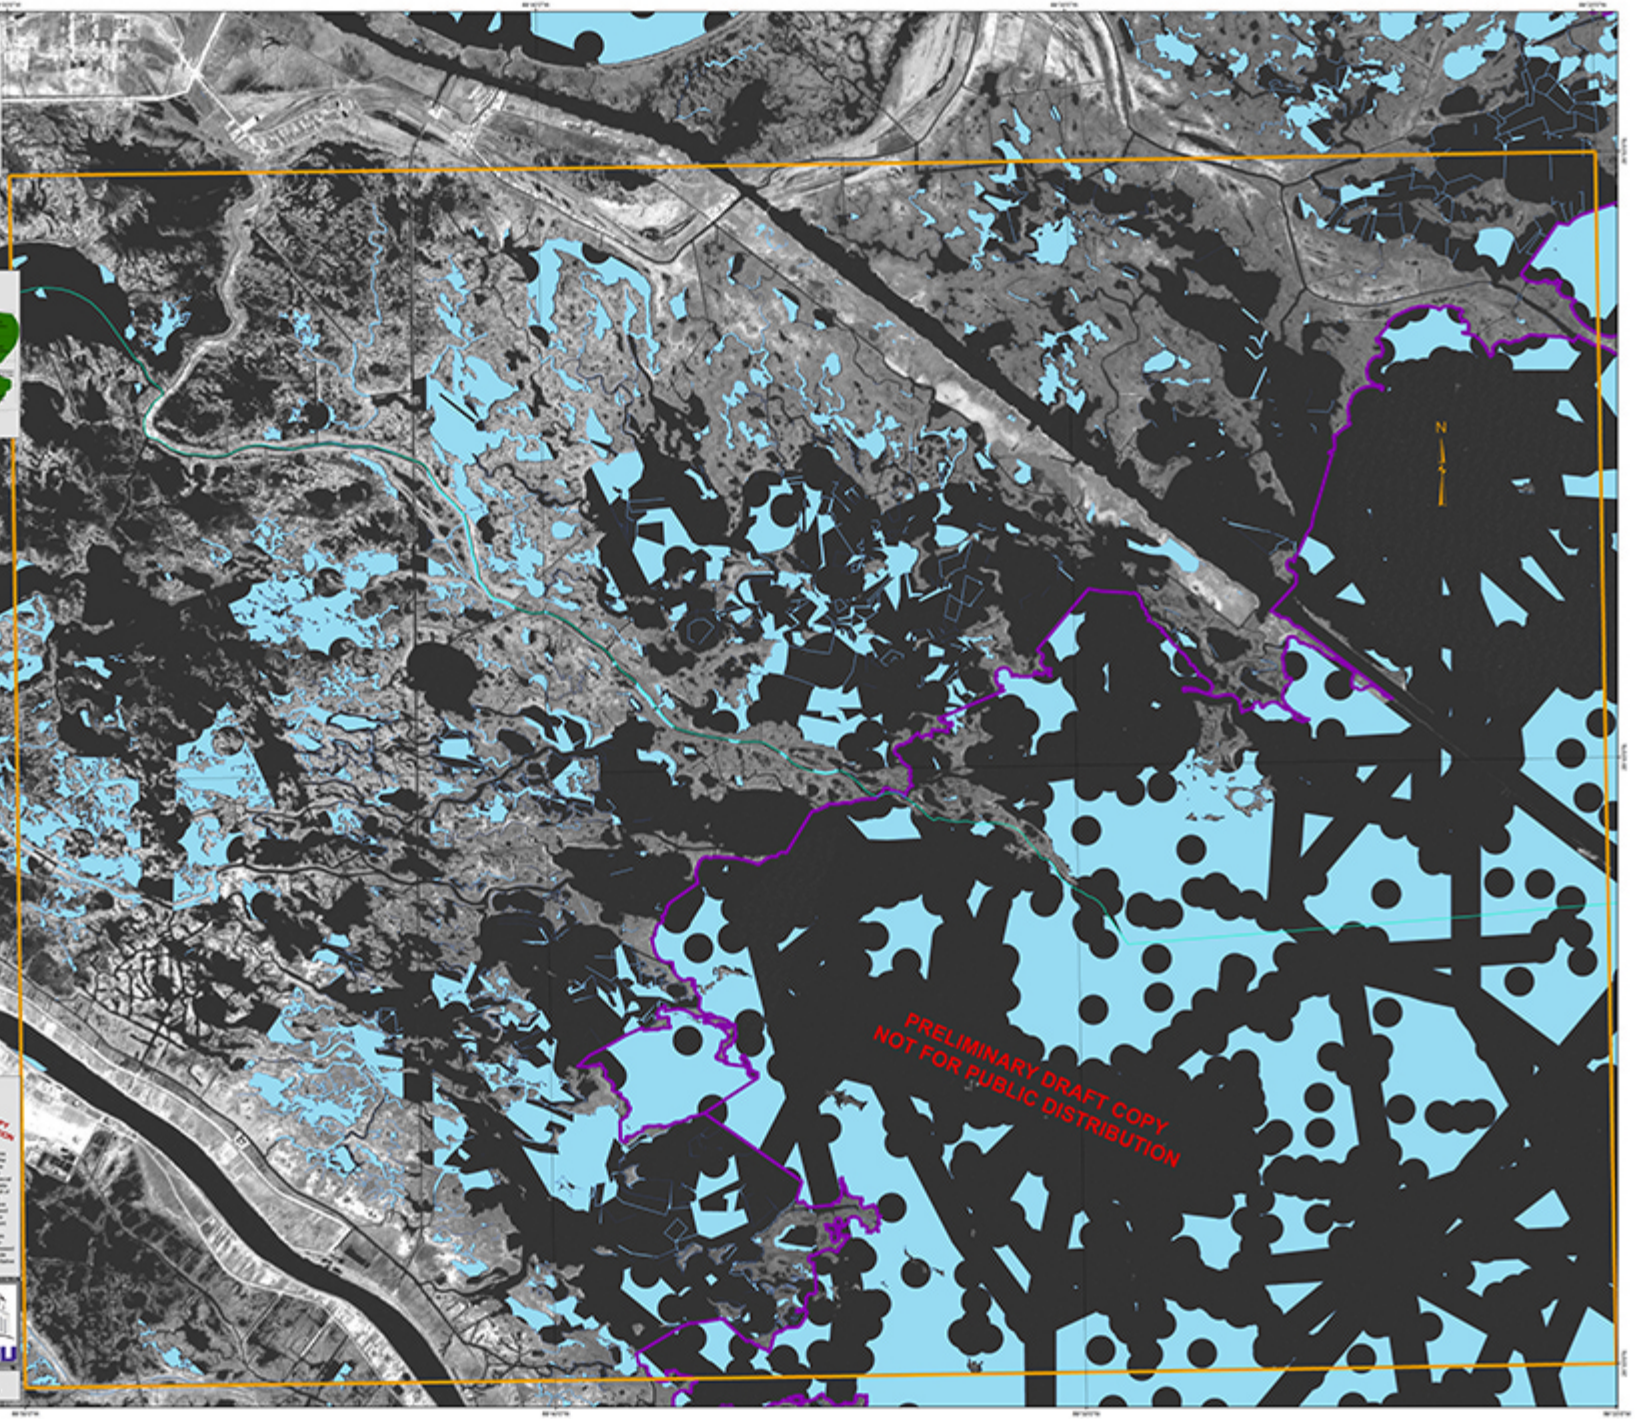
- Area of Interest (AOI)
- Parish Boundaries
- Inshore-Nearshore Boundary
- Artificial Reefs – LDWF
- Artificial Reefs 50-Acre Areas
- Oyster Seed Grounds (Public) – LDWF
- Suitable Areas for Artificial Reef Planning

PRELIMINARY DRAFT COPY
NOT FOR PUBLIC DISTRIBUTION

Prepared by: Louisiana State University
Baton Rouge, LA 70803

Base Map: Landsat Thematic Mapper Satellite Image 2010

Projection Information: Universal Transverse Mercator, Zone 15 North
North American Datum, 1983

Geographic Information System: Sea Grant GIS


Disclaimer: The data herein, including but not limited to geographic data, tabular data, analytical data, electronic data structures or files, are provided "as is" without warranty of any kind, either expressed or implied, or statutory, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. The entities who are the owners of information or the source of data provided by the data, the Sea Grant Office of Coastal Management (SGOCM) and the Louisiana State University (LSU) shall not be liable for direct, indirect, incidental, consequential or special damages in any form, including, but not limited to, loss of anticipated profits or benefits arising out of use of or reliance on the data. The SGOCM and LSU does not accept liability for any damages or misrepresentation caused by inaccuracies in the data or as a result of changes to the data received from system conversions, updates, or other modifications or improvements. Nor is there responsibility to maintain the data in any manner or form. These data have been developed from the best available sources. Although efforts have been made to ensure that the data are accurate and reliable, errors and variations may exist in the data. Users should be aware, that changes in time may be reflected in the data supplied. Users must be aware of these conditions and bear responsibility for the appropriate use of the information with respect to compatibility, accuracy, reliability, verification, assumed accuracy, suitability, methodology, time period, environmental and climatic conditions and other circumstances specific to these data. The user is responsible for the selection of the appropriate data for their intended purpose. The user is responsible for the proper use of the data and bears all risk associated with the use. The user also accepts to be accompanying metadata notes for a description of the data and data quality procedures. Although these data have been processed successfully on computers at the SGOCM and LSU, no guarantee, expressed or implied, is made by SGOCM and LSU regarding the use of these data on any other system, nor does the act of distribution constitute or imply any such warranty. Distribution of these data is intended for information purposes and should not be considered authoritative for navigational, engineering, legal and other site-specific uses.
