

To The Citizens of Natchitoches Parish, Louisiana:

MicroSeismic, Inc (MSI). will be conducting a passive surface monitoring program on a limited number of specific tracts and roadways located in the area of Liberty and Readhimer Louisiana.

Written permission will be obtained from all surface owners, and government agencies, who reside in the intended area where equipment will be placed.

MicroSeismic, Inc. intends to utilize the permitted right-of-way along city roads where possible but may include permitted public and private properties where beneficial and necessary.

You may see MicroSeismic, Inc. equipment in and around the area for a short period of time. Keep in mind the placement of equipment is only temporary and should not interfere with or alter your activities in any way.

There will be no drilling or any other energy source involved in this program. This is recording with Cabling and Geophones Only.

Should you have any questions regarding the placement of equipment, please contact us at the phone number below where we will attempt to address all questions and concerns.

MicroSeismic, Inc. would like to thank everyone, and the Natchitoches Parish, for the opportunity to conduct this effort, which we anticipate will take place beginning on or around May 20, 2022.

There will be a public meeting located in the Town of Natchitoches, Louisiana, 6:00 P.M.. 05-18-2022

Location: Sweet Cane Inn, 926 Washington St. Natchitoches La. 71457

An outline of the seismic project showing the potential area to be affected is located at <https://www.wlf.louisiana.gov/page/seismic-exploration-permits> under the Current Public Notices tab located at the bottom of the page.
