

APPENDIX P. Wildlife Research and Monitoring Projects in Louisiana as of June 30, 2005.

Project title	Project title
A benthic macroinvertebrate survey of lotic systems on the Fort Polk military complex	Collecting gnats/midges to investigate links to Bluetongue virus in deer
A compilation of mammalian occurrences for the Fort Polk military complex.	Community ecology of bats, rodents, and insectivores
A herpetofaunal inventory of occurrences for the Fort Polk military complex.	Conduct aerial/ground surveys of bird nestings
Aerial photography @ Pointe-aux-Chenes WMA	Conduct field survey re abundance of avian
Age/growth & reproductive biology re finfish	Conduct field survey re Henslow's Sparrows
Alligator disease research	Conduct field surveys for avian & herpetofauna
Alligator hide & leather quality study	Conduct forest inventory on WMAs
Alligator snapping turtle nest productivity	Contaminant and disease surveys all species
Ambrosia beetles on National Guard facilities in Louisiana	Crayfish DNA study
Amphibian and Reptile Monitoring along Highway 51	Deer Browse Surveys
Amphibian and Reptile Monitoring in the Lake Pontchartrain Basin	Density survey for the Louisiana Pine Snake
Analyses of records of rare species of fish in Louisiana coastal and estuarine waters - expansion of the work of Bart and Pezold to shallow marine ecosystems - including evaluation of occurrence of Texas pipefish (<i>Syngnathus affinis</i>) - evaluate habitat and	Design aircraft runway at Rockefeller Wildlife Refuge
Analysis of current and historic classification of estuarine sampling sites occupied by long-term LDWF fishery-independent sampling, and re-analysis of the relationships of marsh-dependent species in those environment types	Design surveys and experiments
Analysis of habitat usage by marsh-resident fish and crustacean species	Determine breeding bird distribution
Analysis of spotted sea trout feeding habits	Determine geotech. & biol. properties for artificial reef
Anuran call survey	Determine geotechnical & biological properties
Assist, guide & educate re fisheries resources	Determine infectivity of LPSA in alligators
Avian point counts	Develop and implement SARP program
Avian research	Develop design for nature drive at Rockefeller WMA
Bald Eagle Nest Monitoring on Calcasieu District, Kisatchie NF	Develop population estimates for bobwhite quail
Bathymetric survey of marsh at Rockefeller WMA	Develop strategy to suppress nutria
Behavioral research of skinks and geckos	Differential prey selection in <i>Lythrus umbratilis</i> and <i>Lythrus fumeus</i>
Bobcat home range and seasonal habitat use on Fort Polk	Disease surveillance in birds
Bobwhite quail and fire ant relationships	Distribution and Habitat Selection of Louisiana Pine Snakes at Fort Polk
Bog distribution and inventory on DOD lands associated with the Fort Polk	Distribution and species occurrence of crayfish at Fort Polk.
Breeding bird point counts	Diversity in isolation (4-toed salamander)
Canada goose Survey	DNA study for systematics of Gulf Coast Plain salamanders
Census and Analysis of Louisiana Pine Snakes and Baird's Pocket Gopher Populations as a Tool for Habitat Conservation	Dove Survey
Characterization of Gulf Sturgeon nursery areas - identify key links in life history and sampling strategies for making management recommendations based on knowledge base of species in Louisiana	Eagle nest monitoring for nest productivity
Christmas Bird Count	Effect of blackbirds on rice crops
	Effect of fire ants on small mammals and reptiles
	Effect of storm water discharge on marsh vegetation and water quality
	Effects of habitat disturbance on hybridization, abundance, and distribution of <i>Bufo nebulifer</i> and <i>B. woodhousii</i>
	Effects of roads on vehicular traffic on snake populations associated with the Fort Polk complex
	Effects of sea level rise and salinity intrusion on fishery organisms
	Effects of sedimentation on lotic communities in a coastal plain stream
	Effects of timber stand structure on resin flow

APPENDIX P. Wildlife Research and Monitoring Projects in Louisiana as of June 30, 2005.

Encephalitis surveillance
Engineering services at Rockefeller Refuge
Enhance protect restore waterfowl habitat
Estimate population of black bears in LA
Evaluate fish use of habitat from erosion project
Evaluate hatchling success for gopher tortoises
Evaluate nutria grazing damage & recovery
Evaluate public oyster seed beds
Evaluate tech./effects of rice production on waterbirds
Evaluation of alligator food, habits re nutria
Evaluation of nutria damage control
Evaluation of the compatibility of existing Rapid Bioassessment Protocols in selected southwest Louisiana streams.
Evolution of <i>Anolis</i>
Examining inflated heelsplitter and LA pearlshell muscles
Field investigation of latitud. origin of wintering rails
Field surveys for avian & herp. fauna on WMA
Field surveys for avian & herp. fauna on WMA
Field surveys re abundance of herpetofauna
Field surveys re abundance of herpetofauna
Field surveys to gather data on abundance of avian
Fish disease diagnostic capability to hatcheries
Fish survey re artificial reef habitat
Fishery organism collections to assist in development of brown shrimp population model
Fishery-independent sampling of Louisiana Territorial Sea
General Condition of Deer Herd
Genetic analysis of <i>sirenidae</i> , <i>amphiumidae</i> , <i>proteidae</i>
Geographic Variation in Salinity Tolerance in the Green TreeFrog (<i>Hyla cinerea</i>)
Gopher tortoise surveys
Gopher tortoise surveys
Habitat and prey availability survey for the Louisiana Pine snake on Fort Polk
Habitat specific occurrences for small mammals on Fort Polk
Hair-snare sampling for bears
Hawk Watch
Henslow's Sparrow research
Herp surveys
Herpetofaunal surveys
Honey bee research
Host specificity for LA Pearlshell Mussel
Identification workshops for identification of marine organisms. (Finfish, crustacean, molluscan, potential invasive species including plants and algae)
Identify areas for protection of birds
Identifying essential fish habitats-Barataria Bay

Influences of disturbance on macroinvertebrate drift
Interspecific nest fidelity in Eastern Blue birds
Interspecific site fidelity and dispersion in the Southeastern American Kestrel (<i>Falco sparverius paulus</i>)
Interspecific site fidelity in Henslow's Sparrow
Investigate Marsh Terracing on Refuges
Investigate water quality issues
Investigating the use of "man-made habitats" on the Main Delta by fishery organisms
Investigation of availability of waterfowl foods
Investigation of stock structure
King rail research
Kisatchie NF Bobwhite Abundance
Kisatchie NF Deer Abundance on Select Ranger Districts
Kisatchie NF Land Management Proposed Project Monitoring in compliance with NEPA requirements
Kisatchie NF Landbird Monitoring
Kisatchie NF Squirrel Abundance Estimation
Kisatchie NF Wild Turkey Abundance
LA black bear and gopher tortoise research
LA black bear monitoring
LA black bear repatriation
LA black bear research
LA black bear research
LA black bear translocations
LA pine snake research
Lake Pontchartrain Fish Monitoring
LAMP surveys
Legal services re boundary dispute
Life cycle of <i>Centrohynchus</i> spp.
Loggerhead shrike and American Kestrel census
Longleaf pine ecosystem restoration on the Kisatchie NF
Louisiana native irises
Louisiana Pine snake Abundance on Kisatchie NF
LSU 2575 Biological control of common Salvinia
LSU1064 Environmental investigation of the long term use of ship shoal
LSU1085 Landscape fire models for the Avon park air force range
LSU1089 The effects of forest fragmentation on seed dispersal in the cent
LSU1090 A comparison of herpetofauna biomass across the Amazon basin
LSU1092 Conservation strategies across the Amazon basin: how many neotrop
LSU1120 Modeling risk of Chinese tallow invasion in an heterogeneous
LSU1125 Inventory of freshwater mussels in three Florida parish rivers
LSU1133 Enhancement of the collections and web site at the LSU herbaria

APPENDIX P. Wildlife Research and Monitoring Projects in Louisiana as of June 30, 2005.

LSU2310 Comparing waterbird density between unrestored marshes and marshes	Mid-winter waterfowl survey
LSU2311 Sare forest landowners	Molecular & morphological study of <i>Bufo americanus</i>
LSU2312 Forest management and avian and herps	Monitor relocated black bears--repatriate
LSU2313 Census and evaluation of breeding waterbirds in southwest Lou	Monitoring Avian Productivity and Survivorship (MAPS)
LSU2316 Evaluating latitudinal origin of wintering rails in southwest Lou	Mosquito Abatement Disease Surveillance
LSU2317 Evaluation of aquatic macro-invertebrates available to wintering	Mosquito populations and predators
LSU2318 Evaluation of impacts from excessive sediment deposition on bottom	Movements of white pelicans and double crested cormorants
LSU2319 Pre-assessment screen of devil's swamp, Louisiana	Nesting and Foraging Habitat Requirements of Breeding and Migrant American Kestrels in Eastern Texas
LSU2320 Evaluate habitat factors/NRCS wetland reserve program	Nesting, reproduction and behavior of 3-toed box turtles
LSU2335 Collection of fish tissue samples for radiological analysis	North American Breeding Bird Survey
LSU2336 Stock identification of Louisiana's largemouth bass fishery	Numerous migratory bird studies
	Occurrence surveys of rodents and bats
	Operate/maintain 15 hydrographic data platform
	Pallid Sturgeon population dynamics at the Old River Control Complex, Concordia Parish
	Parasite communities of marine vertebrates and invertebrates

APPENDIX P. Wildlife Research and Monitoring Projects in Louisiana as of June 30, 2005.

Parasite distributions on small mammals, reptiles, and amphibians
Parasitology research
Participate in cost share grant for data collec.
Photographic documentation of breeding shorebirds, waterbirds, and sea birds
Phylogeography and population structure of diamond back watersnakes
Pocket gopher marking
Population genetics of herps
Preparation and submission of NAWCA grant
Prescribed burn mngmt for maint. of longleaf pine
Prey selection in brown madtoms (<i>Noturus phaeus</i>) on Fort Polk
Project Prairie Bird
Provide management expertise re: ducks
Quail Survey
Range extensions of amphibians and reptiles
RCW demographic monitoring
Reciprocal cross fostering of the Red Cockaded Woodpecker (<i>Picoides borealis</i>)
Red-Cockaded Woodpecker Monitoring on Kisatchie NF
Reduce beaver damage to state property
Remove predators from duck nesting areas
Represent LDWF re Charles E. Reilly, et al
Represent LDWF re Pelts & Skins suit
Research biological control of common Salvinia
Research herpes virus/PIX disease in alligators
Research nutria population differences
Research nutria population differences at Chenier
Research on bobwhite quail
Research/monitor pocket gopher populations
Research/rescue marine mammals/sea turtles
Salinity as a stressor of the fresh water turtle
Sample mussel beds fro area rivers
Sampling of cryptic habitats within Louisiana marsh tidal zones (mangroves, soft-mud ponds, semi-vegetated marshes, oyster reefs)
Sandhill Crain wintering study
Sea turtle research
Sea turtle research
Seasonal use of bridges as day roosts by Rafinesque's big eared bat
Seasonal variability associated with benthic macroinvertebrate drift in a southwestern Louisiana stream
Shallow-tailed kite and songbird monitoring
Shorebird Survey
Side-scan sonar survey of 7 reef sites

Small mammal & bat population dynamics
Snow geese movements
Soil and water chemistry and plant phenology
Southeast Coopertive Wildlife Disease Project
Southeastern Cooperative Fish Kill Survey
Sp. Assemblages of forest ecosystems
Statistical support for fisheries management
Stock identification of largemouth bass
Study of migratory passerines
Study wintering female mallard habits
Survey critically imperiled amphibians
Survey for water management on Catahoula Lake
Survey of Louisiana anglers
Survey work at Rockefeller Wildlife Management Area
Systematic relationships among turtles
Tadpole survey
Terrestrial vertebrate research
Test skin lesions on alligators
The differential effect of stream crossing types on fish movement in low gradient coastal plains streams
The effects of highway bridge bat roosting on water quality, water chemistry, and aquatic life
To Monitor Abundance & Distribution of Northern Bobwhite, A Kisatchie NF Management Species
Treefrog study
Turkey Gobbler Survey
Turtle & amphibian study
Turtle habitat identification
Update & consolidate info for Louisiana Natural Registry Program
Vegetation research
Vegetative studies to assess vertical accretion, soil fertility, and subsidence
Water snake and crawfish evolutionary history
West Nile monitoring
Wetland Impacts of Nutria grazing
Wild Turkey Brood Survey
Wildlife Disease Study
Winter philopatry in sparrows and the biology of loggerhead shrikes
Wood duck nest box program
Wood Duck Nest Box Surveys
Wood Thrush study in Atchafalaya Basin
