

Beyond BOW
Advanced Archery
May 18, 2013
Ouachita Parish Sheriffs Range, West Monroe

Take your basic archery knowledge learned from BOW and enhance your skills with this advanced archery training. Get in touch with your personal bow or if you don't have one, we will provide a basic Genesis bow for you to shoot. You will learn the dos and don'ts of a variety of bows and what it takes to be a skilled shooter whether it is competition shooting or hunting.

For those that love the hunt, you will be shown treestand safety techniques and why treestand accidents are the number one hunting accidents on record. A variety of stands will be shown with the use of safety harnesses and their importance.

Other field exercises include the opportunity to walk a top of the line, 3-D archery range located at the Ouachita Parish Sheriffs Range in West Monroe. Each participant will be guided through several stations shooting at an assortment of 3-D targets.

DATE: May 18, 2013 (one day only)
LOCATION: Ouachita Parish Sheriffs Range, West Monroe
TIME: 8am-4pm (lunch will be provided)
COST: \$40

NUMBER OF PARTICIPANTS: 12 (Twelve)

APPLICATION PROCESS: Applications can be submitted by mail or by person at the Monroe LDWF Office. After the deadline date, 12 applicants will be randomly chosen. We can mail or fax applications to you or it can be found on on-line at www.wlf.la.gov and look under education at the bottom of the page.

QUALIFICATIONS TO ATTEND: You **must** have taken the Archery Class at a previous Louisiana BOW Workshop. Novice archers that wish to advance their knowledge in the field of archery are welcomed. This workshop is not intended for the experienced archer.

Archery Range

Nestled within the 120 acre complex of the Ouachita Parish Sheriff's Office Training Center and Public Range is the OPSO Archery Park. This Park was built in the spring of 2010 with the goal of bringing a first class archery facility to the Ouachita Parish area for the public's use. This archery park contains many natural areas for every type of archer. As you enter the park you will notice a 5 target handicapped accessible range. This range is equipped with a 20 by 20 concrete shooting pad and 120 feet of natural wood boardwalk. Archers needing any assistance will receive one on one attention. Targets are from 10 to 30 yards.

YOUTH AREA – The future of archery lies in the hands of our youth. OPSO has made great provisions for that at the park. The youth range consists of 11 target stations out to 15 yards along with 3D targets. Archers will be shooting off a 165 foot long boardwalk slightly elevated off the ground. The youth range is located just down from the range house and is completely shaded. Archers 10 and under are asked to be supervised by an adult.

ELEVATED SHOOTING – For elevated shooting we have a 12 foot high shooting deck equipped with staircases and safety railing. This site will be used year round for hunting style shots and will be set up with 3D targets. Below the shooting tower there is an 80 yard field range with targets starting at 10 yards. Our goal is to facilitate field archer, have field tournaments as well as NASP events. (National Archery in the Schools Program)

WALK THRU BAG & 3D RANGE – Our walk through range has 21 permanent Morrell bag targets to shoot. The targets are under weatherproof pavilions and are maintained year round. The first week of every month the range will set up 20 to 25 3D targets for your enjoyment. There are 50 possible shooting positions to set up on the course making each month a different shot angle and distance.
