# GIVE A WHOOP!

*Teach your students about the endangered Whooping Crane*

Chevron is hosting a workshop to teach 5th to 12th grade teachers about efforts to reintroduce the endangered Whooping Crane into Louisiana's ecosystem. Teachers will receive innovative classroom activities to teach their students about the importance of this great bird. See the area where the birds

are re-introduced at the Louisiana Department of Wildlife and Fisheries' beautiful facility in White Lake.

This majestic bird nearly went extinct—less than 75 years ago only 21 birds were known to exist. Now they're on the road to recovery, numbering over 400.

**AUGUST 2ND, 2012 | 8 AM-4 PM**  
**LDWF WHITE LAKE WCA FACILITY, SOUTH OF GUEYDAN, LA**

### Participants will receive:

- » Boat ride in the White Lake Wetlands Conservation Area
- » GPS unit and training
- » Breakfast and lunch
- » Digital and physical lesson plans and info
- » \$75 stipend
- » Up to 7.5 CLU credits
