

**2011 LEP National Conference  
July 28-30, Albuquerque, NM  
CALL FOR PROPOSALS**

***Aldo Leopold's Land Ethic: Then and Now  
Discovering the Past, Creating Our Future***

The 2011 conference will offer new skills and ideas for teaching conservation and environmental education, making land management decisions and putting on events in your community. This year's conference will have three strands:

- Environmental Education
- Natural Resource Management/Habitat
- Community Outreach

We encourage presenters to submit proposals that address one or more of these strands. Please choose one of two presentation lengths to best suit your needs: **concurrent sessions** are one hour time slots best suited to a lecture or a short activity; **workshop sessions** (only 5 slots available) are two hours and conducive to a longer activity, especially if it involves going outside. If you request a workshop, let us know if it can also be adapted for a concurrent session.

A selection committee will review each proposal. Presenters will be notified by June 1, 2011. Presenters interested in attending the conference will be offered a \$50 discount on their registration fee.
