Dear Scenic River Permit Applicant:

Please review and concur on the following statement regarding the issuance of permits by the Louisiana Department of Wildlife and Fisheries. This agreement must be signed and returned before a Scenic River Permit can be issued.

"I have been advised and do understand that by applying for and accepting a Scenic Rivers permit issued by the Louisiana Department of Wildlife and Fisheries, I am being allowed to engage in an activity which would otherwise be prohibited by law or for which a permit is required. I understand that the permit is not a license and confers no property right upon me. I specifically agree to abide by all State and Federal fish and wildlife laws and regulations, and all State and Federal laws and regulations which relate to this permit or the permitted activity, and by all other terms and conditions of this permit. I understand that the permit for which I am applying may be suspended, annulled, withdrawn or revoked and that I may be assessed civil penalties, all in accordance with the provision of the Louisiana Administrative Procedure Act, and that I may be denied future permits as a consequence of my failure to fully and completely comply with the terms and conditions of the permit, as well as other laws and regulations pertinent thereto. If served with or notified of a cease and desist order signed by the Scenic Rivers Administrator, I agree to immediately and without delay cease all activities and operations which relate to the permitted activity or which are impacting the Scenic River, until such time as the matter can be resolved in an adjudicatory hearing pursuant to the Louisiana Administrative Procedure Act. I understand and agree that any permit issued to me by the Louisiana Department of Wildlife and Fisheries is in the nature of a privilege which is being voluntarily extended to me by the Department and the failure on my part to cooperate with the Department can result in the loss of the privilege conferred and the denial of future requests for permits. By accepting this permit, I evidence my agreement to be bound by all conditions and stipulations set forth herein."

Scenic Rivers – Environmental Assessment

Project Description: Proposal to install a bulkhead with dock and boathouse on the Tchefuncte River

1. Existing Land Use

The land is owned by Jody Grass and used for residential activities. This is an existing home that Jody Grass owns. The home was built in the eighty's.

2. Wilderness Qualities

The project will have no negative impact on wilderness qualities. The opposite bank line side is vegetated.

3. Scenic/Aesthetic Values

The scenic values will not be impacted by the proposed project. The project is similar to other piers, docks, and camps along the river. This residence will not include any changes to the landscape.

Ecological Regimes

The proposed project should have no impact on the ecology of the river as the structures will not alter existing water flow patterns. This new bulkhead will go along the existing bank side and stop erosion on this address.

4. Recreational Use/Opportunities

This new bulkhead is on a private residence and not open to the public.

5. Fish and Other Aquatic Life

Fish and other aquatic life should not be impacted by the proposed project. The bulkhead will be driven into the existing mud bank.

6. Wildlife

The wildlife on the property should not be permanently affected by construction activities. No land clearing required for this bulkhead.

7. Historical and Archaeological Resources

To the best of our knowledge, no historical or archaeological resources of significance occur on the property.

8. Geological Resources

To the best of our knowledge, no geological resources adjacent to the river will be changed by the proposed project.

9. Botanical Resources

All work will be from a barge and no clearing will be needed.

10. Water Quality and Quantity

No change to water quantity or quality of the river is expected during or after construction. No fill required.

11. Hydrologic Features

The proposed project will not have any significant impact on local hydrology.

12. Cultural Resources

There are no known cultural resources associated with this project.

13. Economic Impact of Project

The post construction will allow the owner to board the boat safely and enjoy the water.

Steps to Minimize and/or Offset Potential Impacts to the River

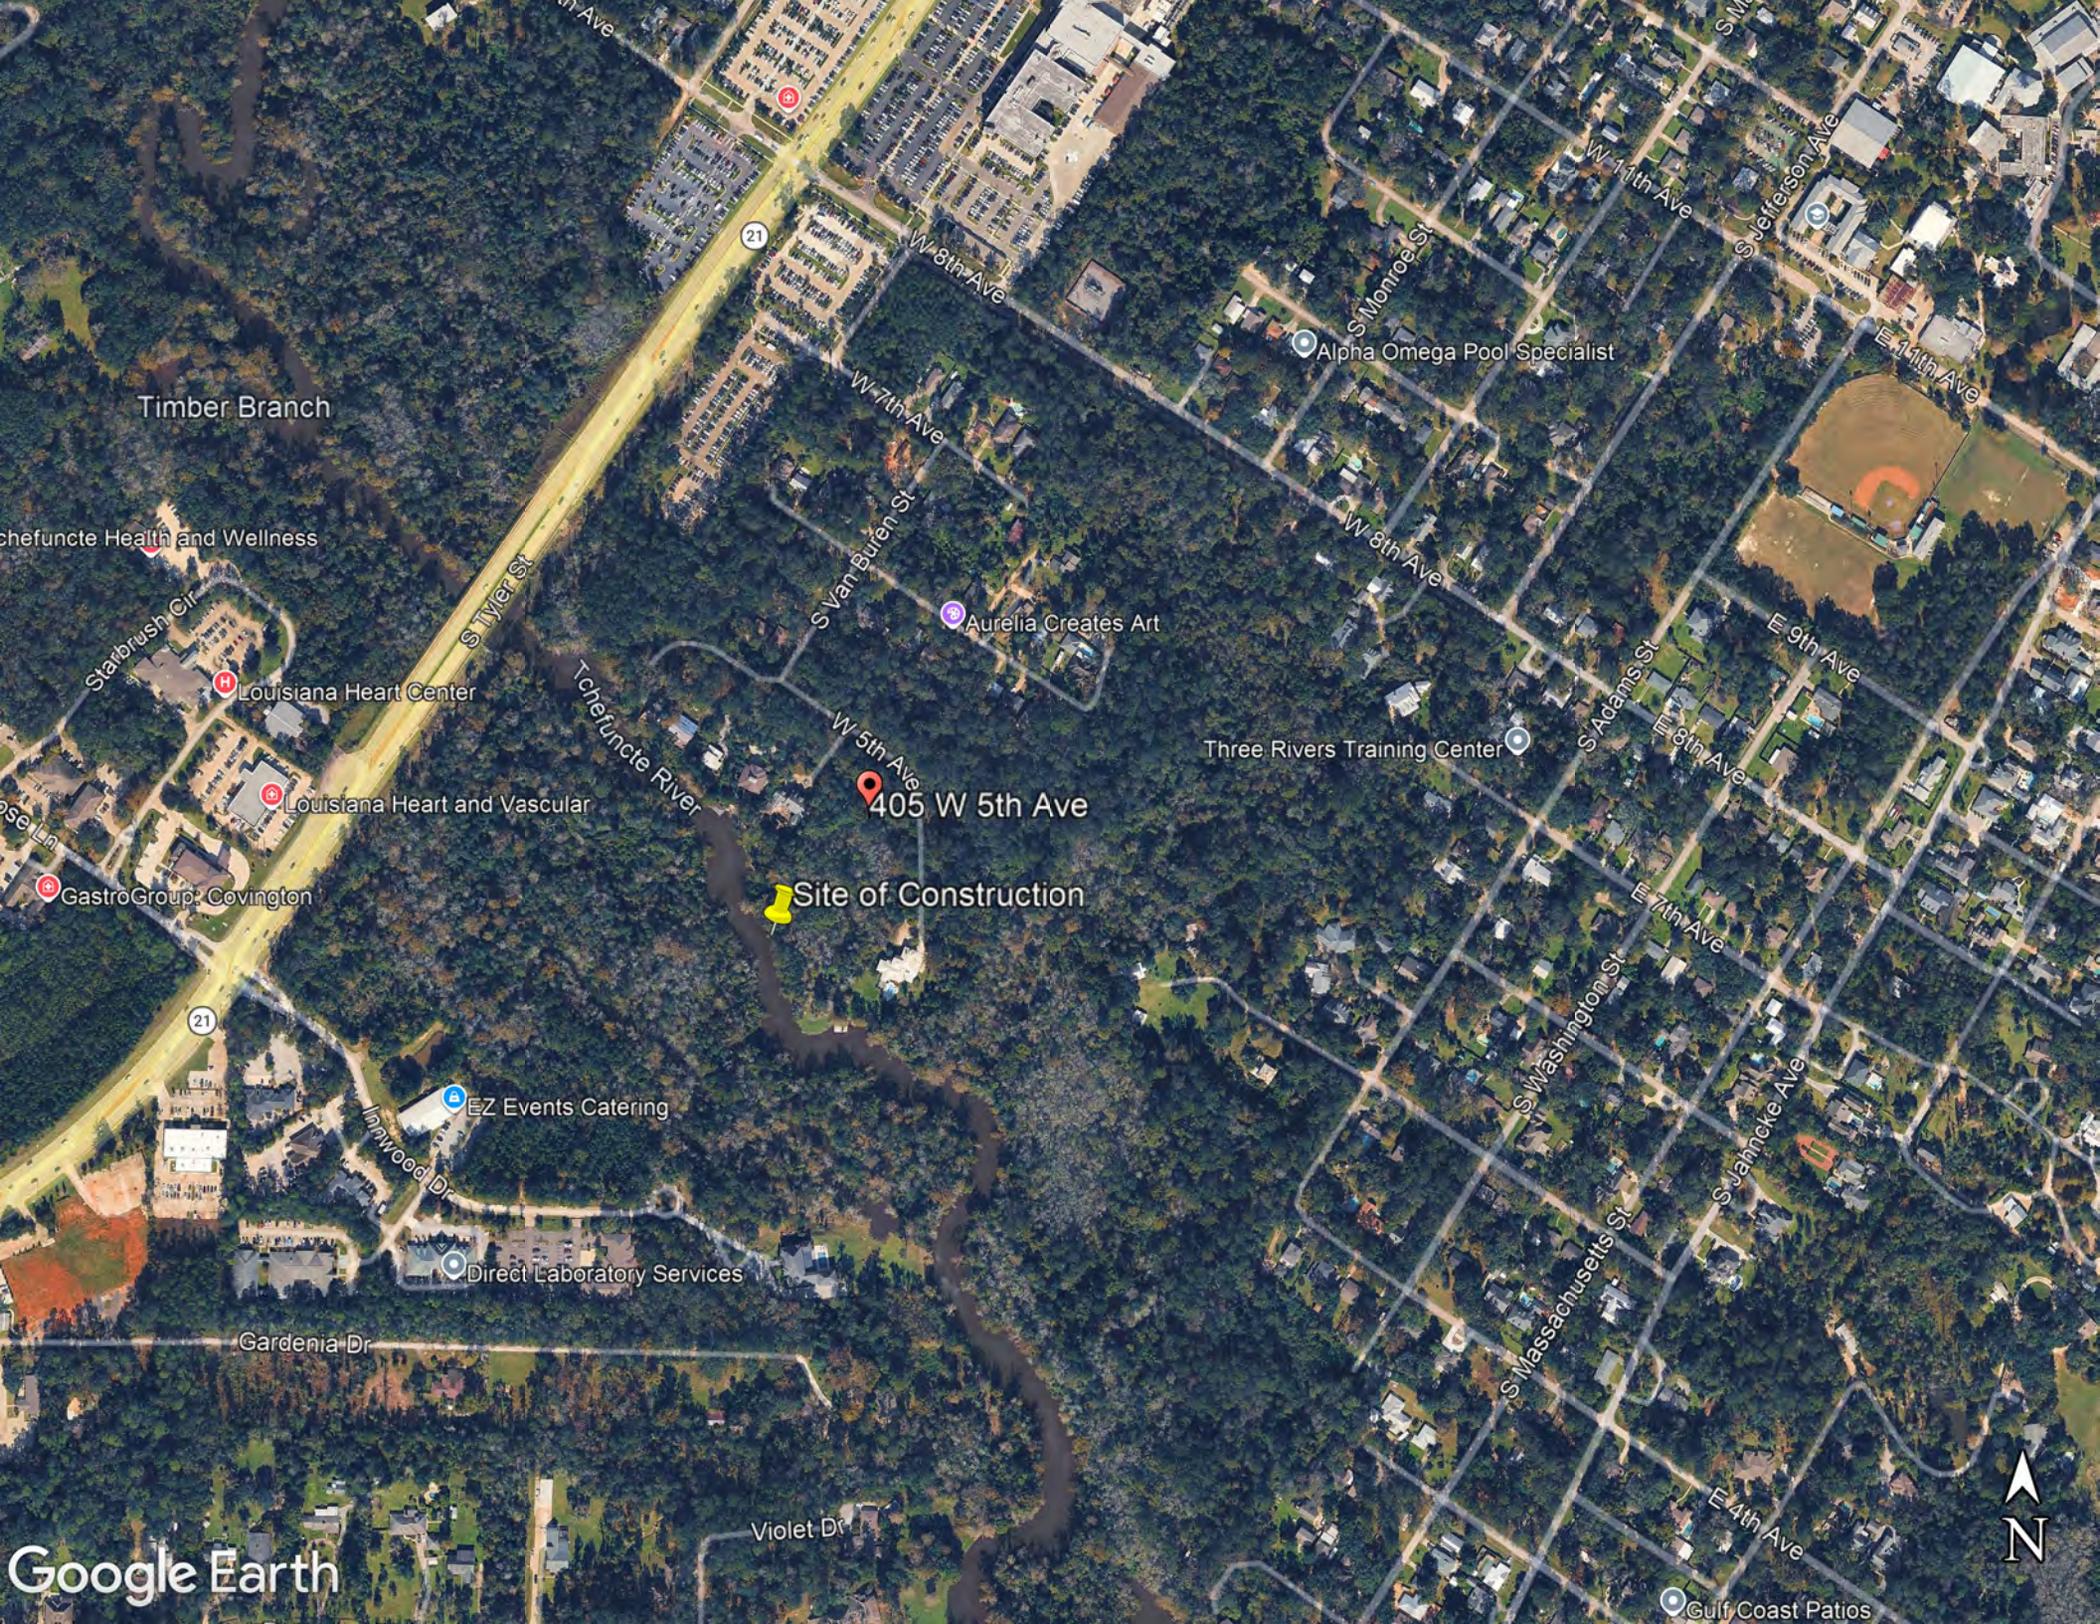

This will allow the owner to board the boat safely and enjoy the waterways.
