Dear Scenic River Permit Applicant:

Please review and concur on the following statement regarding the issuance of permits by the Louisiana Department of Wildlife and Fisheries. This agreement must be signed and returned before a Scenic River Permit can be issued.

"I have been advised and do understand that by applying for and accepting a Scenic Rivers permit issued by the Louisiana Department of Wildlife and Fisheries, I am being allowed to engage in an activity which would otherwise be prohibited by law or for which a permit is required. I understand that the permit is not a license and confers no property right upon me. I specifically agree to abide by all State and Federal fish and wildlife laws and regulations, and all State and Federal laws and regulations which relate to this permit or the permitted activity, and by all other terms and conditions of this permit. I understand that the permit for which I am applying may be suspended, annulled, withdrawn or revoked and that I may be assessed civil penalties, all in accordance with the provision of the Louisiana Administrative Procedure Act, and that I may be denied future permits as a consequence of my failure to fully and completely comply with the terms and conditions of the permit, as well as other laws and regulations pertinent thereto. If served with or notified of a cease and desist order signed by the Scenic Rivers Administrator, I agree to immediately and without delay cease all activities and operations which relate to the permitted activity or which are impacting the Scenic River, until such time as the matter can be resolved in an adjudicatory hearing pursuant to the Louisiana Administrative Procedure Act. I understand and agree that any permit issued to me by the Louisiana Department of Wildlife and Fisheries is in the nature of a privilege which is being voluntarily extended to me by the Department and the failure on my part to cooperate with the Department can result in the loss of the privilege conferred and the denial of future requests for permits. By accepting this permit, I evidence my agreement to be bound by all conditions and stipulations set forth herein."

Scenic Rivers – Environmental Assessment

Project Description: Proposal to have a dock in my front yard on Bayou Des Allemands.

1. Existing Land Use

The land is owned by Ray M Pickett (ME) and used for personal use/ activities. [Add some history of the site, I purchased in 1995 and there were a pier and a boat cover at this property has been a private residence/camp since PROIR to 1995; this property is an existing ROW; this property is in a highly undeveloped neighborhood I have 2 grandsons and hope they use it after I'm gone.

2. Wilderness Qualities

The project will have no negative impact on wilderness qualities. **none, one steel wall on both side of the bayou, that are ugly, but necessary**

Scenic/Aesthetic Values

The scenic values will not be impacted by the proposed project. The project is similar to other piers, docks, and camps along the river. Pilings replaced from creosote to approved water contact materials where they were thrrre before 1995 and after 1995 is when my application was sent

3. Ecological Regimes

The proposed project should have no impact on the ecology of the river as the structures will not alter existing water flow patterns. [Will project activities increase turbidity (sediment load) No change, there is no solid partition to slow water

4. Recreational Use/Opportunities

[Does this project allow for recreation at this location? If so, public or private? If not, state why not.] Private use, I have a floating dock and will allow kyacks to deploy (boy scouts)

5. Fish and Other Aquatic Life

Fish and other aquatic life should not be impacted by the proposed project. [If disturbing the water bottom, this can disturb fish and aquatic life, but should be temporary. Elaborate.] no fish or wildlife impacted

6. Wildlife

The wildlife on the property should not be permanently affected by construction activities. None. Private residence in a neighborhood

7. Historical and Archaeological Resources

To the best of our knowledge, no historical or archaeological resources of significance occur on the property. None and site was cleared by the natural resources group

8. Geological Resources

To the best of our knowledge, no geological resources adjacent to the river will be changed by the proposed project. none

9. Botanical Resources

I planted a red scarlet oak tree on the levee after the demolition of my existing dock by sea wall installer and its doing well.

10. Water Quality and Quantity

No change to water quantity or quality of the river is expected during or after construction. [Explain how you will try to prevent sediment or rock/concrete from falling into the river, if any will be used.] N/A

11. Hydrologic Features

The proposed project will not have any significant impact on local hydrology. none

12. Cultural Resources

There are no known cultural resources associated with this project. none

13. Economic Impact of Project

[Think in terms of local businesses for labor and materials, or post-project benefit.]
none

Steps to Minimize and/or Offset Potential Impacts to the River

One positive is the water around our docks has been cleared of old pilings and storm debris by us and no one cared

Alternatives

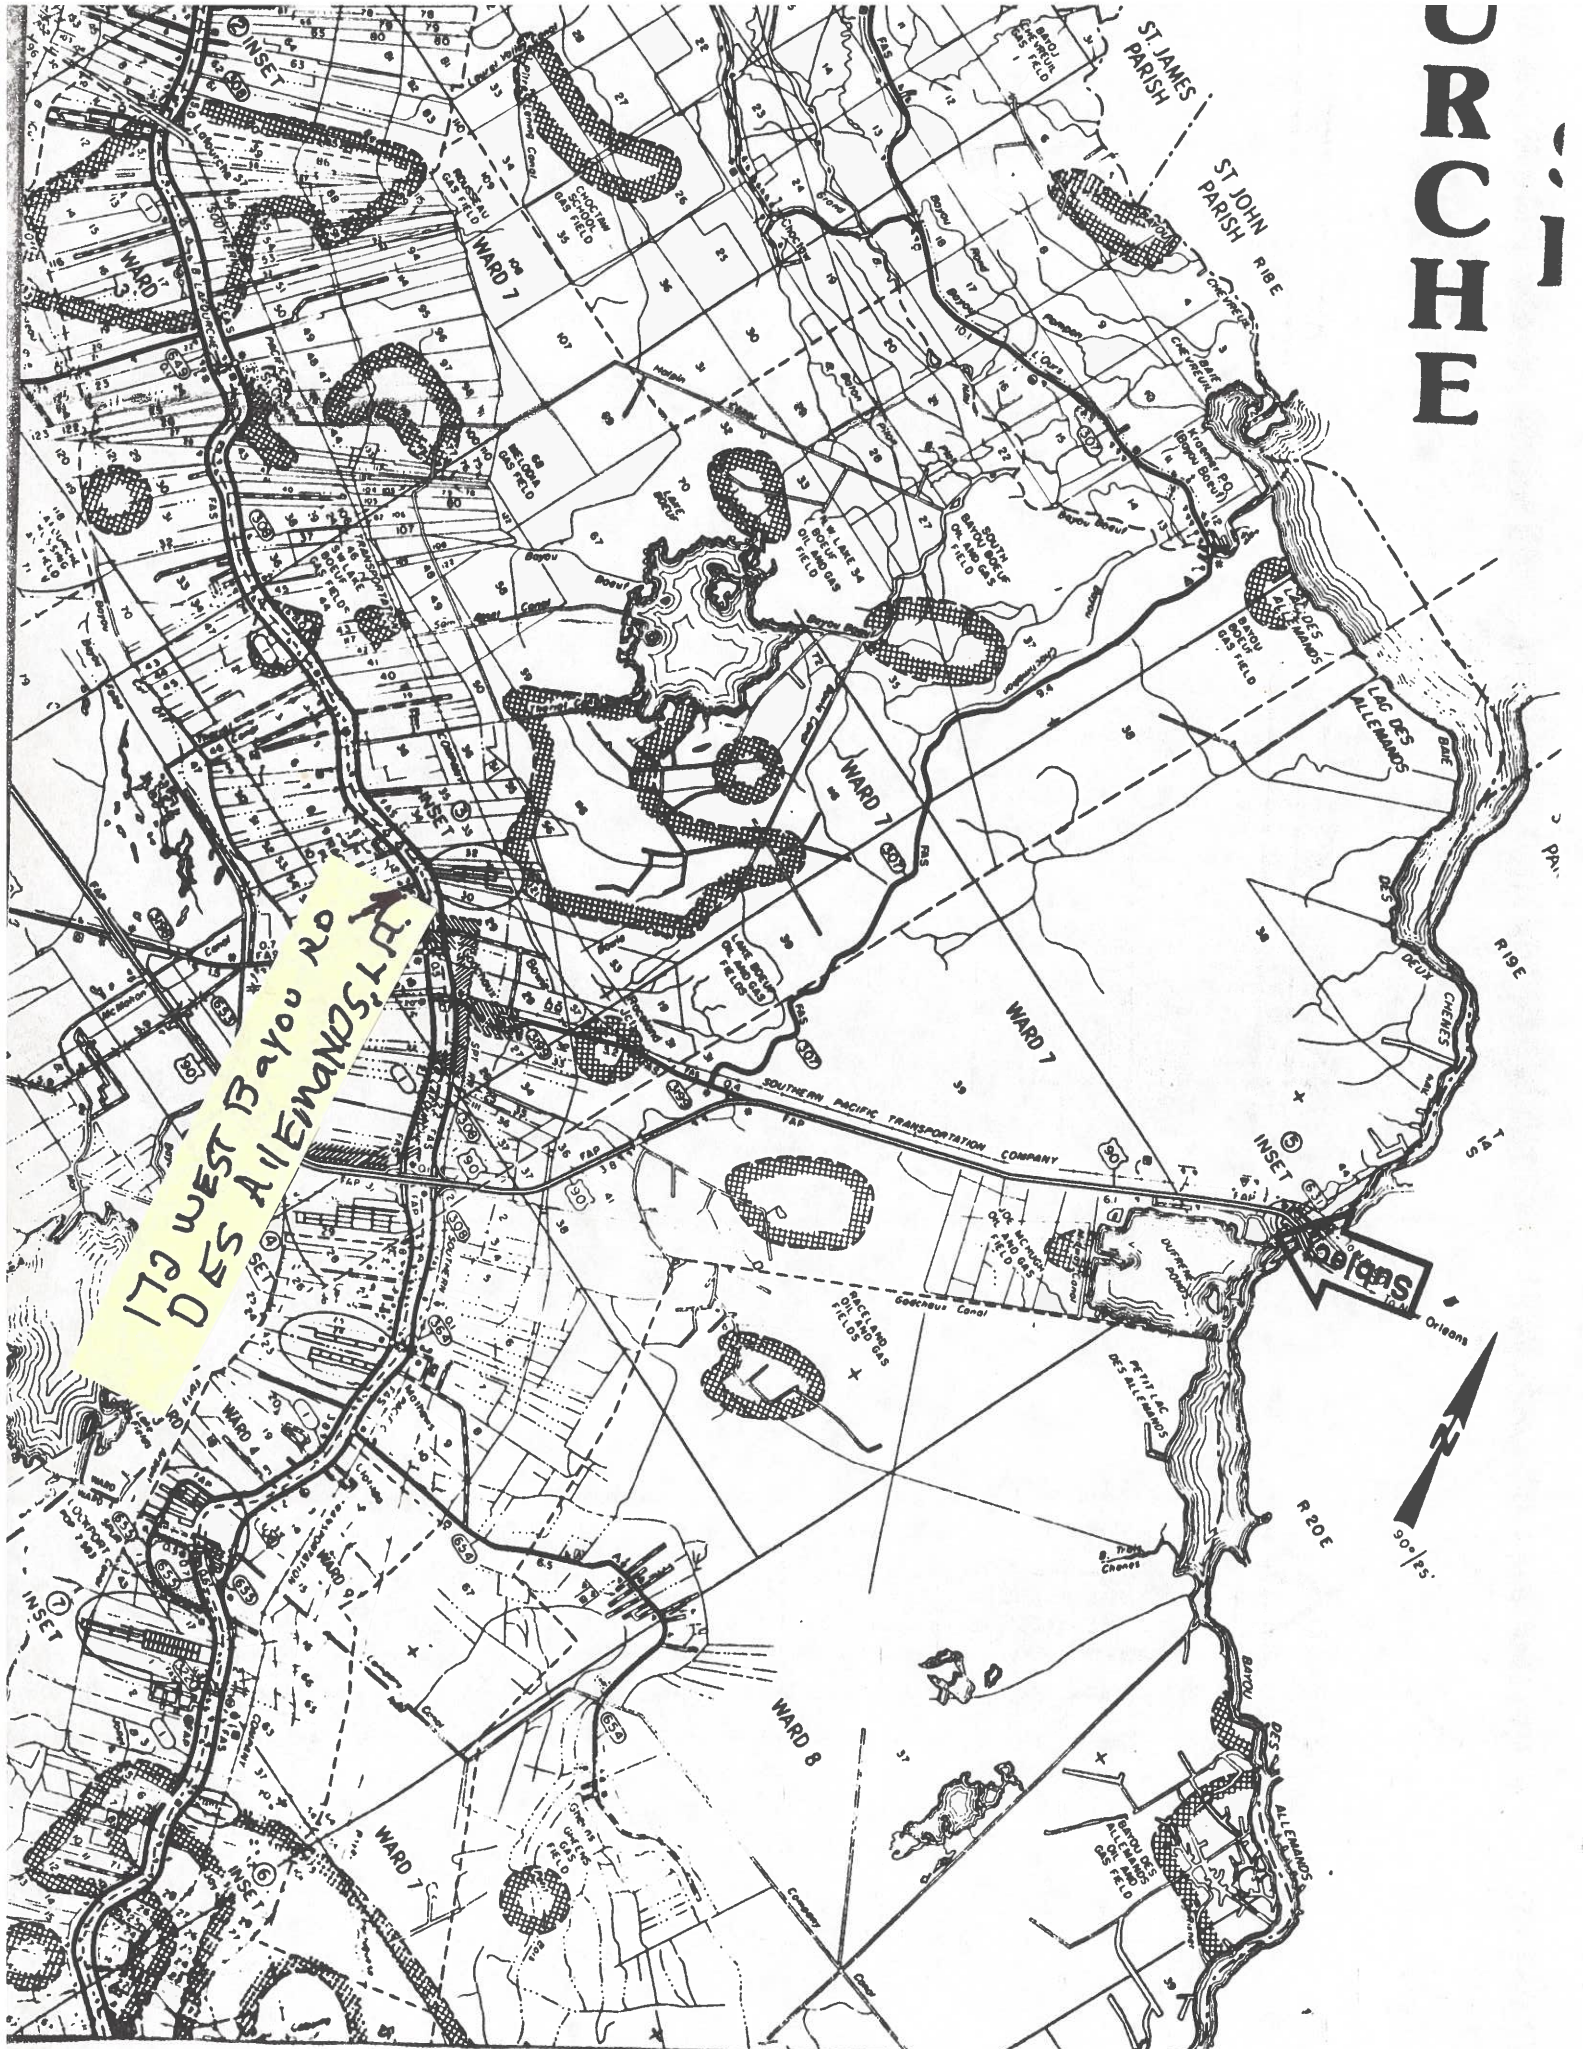

Any alternative construction methods or designs considered? none

Applicant's Compliance History

Have you been cited for any violation of the Scenic Rivers Act? Make this into a statement.

NAME AND ADDRESS: **RAY M. PICKETT**, 172 West Bayou Road, Des Allemands, LA 70030

LOCATION: **LAFOURCHE PARISH, LA:** Bayou Des Allemands; 172 West Bayou Road, Des Allemands. Bayou Des Allemands is a Louisiana Scenic River.

PROJECT DESCRIPTION:

Construction of a 31' x20' boat dock for private use. No dredge or fill required. The boat dock will be located adjacent to an existing bulkhead.

In accordance with the rules and regulations of the Louisiana Coastal Resources Program and Louisiana R.S. 49, Sections 213.1 to 213.21, the State and Local Coastal Resources Management Act of 1978, as amended, the permittee agrees to:

1. Carry out or perform the use in accordance with the plans and specifications approved by Department of Natural Resources.
2. Comply with any permit conditions imposed by the Department of Natural Resources.
3. Adjust, alter, or remove any structure or other physical evidence of the permitted use if, in the opinion of the Department of Natural Resources, it proves to be beyond the scope of the use as approved or is abandoned.
4. Provide, if required by the Department of Natural Resources, an acceptable surety bond in an appropriate amount to ensure adjustment, alteration, or removal should the Department of Natural Resources determine it necessary.
5. Hold and save the State of Louisiana, the local government, the department, and their officers and employees harmless from any damage to persons or property which might result from the use, including the work, activity, or structure permitted.
6. Certify that the use has been completed in an acceptable and satisfactory manner and in accordance with the plans and specifications approved by the Department of Natural Resources. The Department of Natural Resources may, when appropriate, require such certification be given by a registered professional engineer.
7. All terms of the permit shall be subject to all applicable federal and state laws and regulations.
8. This permit, or a copy thereof, shall be available for inspection at the site of work at all times during operations.
9. The applicant will notify the Coastal Management Division of the date on which initiation of the permitted activity described under the "Coastal Use Description" began. The applicant shall notify the Coastal Management Division by mailing the enclosed green initiation card on the date of initiation of the coastal use.
10. Unless specified elsewhere in this permit, this permit authorizes the initiation of the coastal use described under "Coastal Use Description" for two years from the date of the signature of the Secretary or his designee. If the coastal use is not initiated within this two year period, then this permit will expire and the applicant will be required to submit a new application. Initiation of the coastal use, for purposes of this permit, means the actual physical beginning of the use activity for which the permit is required. Initiation does not include preparatory activities, such as movement of equipment onto the coastal use site, expenditure of funds, contracting out of work, or performing activities which by themselves do not require a permit. In addition, the permittee must, in good faith and with due diligence, reasonably progress toward completion of the project once the coastal use has been initiated.
11. This Coastal Use Permit authorizes periodic maintenance, but such maintenance activities must be conducted pursuant to the specifications and conditions of this permit.
12. The following special conditions must also be met in order for the use to meet the guidelines of the Coastal Resources Program:

RE: **P950584, Coastal Use Permit Application**
Construction of a 31' x 20' boat dock for private use. No dredge or fill required. The boat dock will be located adjacent to an existing bulkhead.
LAFOURCHE PARISH, LA

Dear Mr. Pickett:

The above referenced Coastal Use Permit Application has been reviewed pursuant to Section 214.30 of La. Revised Statute 49. Following an assessment of probable impacts and the information currently available to the Coastal Management Division, it has been determined that the proposed activity appears to be consistent with the state program.

A copy of the draft Coastal Use Permit for the referenced activity is enclosed. In approximately five (5) days from the date of this letter, it will be presented for final approval. If you object to the conditions of the enclosed draft permit, please contact Mr. Rocky Hinds by telephone at (504) 342-7591 as soon as possible after receiving this letter. Otherwise, the permit shall become legally effective when it is signed. Please be advised that comments received in accordance with applicable regulations regarding public notice prior to the issuance of the signed permit must be considered in the formulation of the final consistency determination for the application. Such comments may, in rare instances, necessitate your submittal of additional information and/or the inclusion of additional conditions or the modification of conditions currently proposed in the enclosed draft permit. In no case can a final permit be issued prior to the thirtieth (30) day following publication of the Public Notice for this application in the Official State Journal.

Please keep the enclosed permit for your records. This office will send the signed permit to you and will send a copy to the Permit Section of the New Orleans District Corps of Engineers.

Sincerely,

Terry W. Howey, Administrator

Dear Ms. Weiser:

Reference is made to the Public Notice dated July 24, 1995, regarding the above. A review of our files indicates that there is one archaeological site, 16LF248, located in the project area (see enclosed). However, we feel that the proposed construction will have no effect on this site, and as such, we have no objections to the proposed project. Should any archaeological material be discovered, we request that work be stopped in that area and this office notified immediately so that we may assess these remains.

Should you have any questions or need any further information, please contact Mr. Mike Mahady in the Division of Archaeology at (504) 342-8170.
