FURBEARERS
The following animals are classified as furbearers: beaver, bobcat, coyote, gray fox, mink, muskrat, nutria, opossum, river otter, red fox, raccoon and skunk.

2024-2025 SEASON
The trapping season will open STATEWIDE on November 20, 2024, and will close on March 31, 2025 (title 76.129). **For trapping seasons on wildlife management areas see the individual WMA schedules.**

LICENSES
Trapper: No person shall set or run traps of any type to catch furbearers during the open trapping season without a current trapping license. **No person shall sell pelts or carcasses of furbearers without a current trapping license.** (This includes bobcat, raccoon and/or opossum hunters selling pelts and/or meat.) Every fur trapper must at all times have his current trapping license in possession while trapping or selling pelts or carcasses.

Fur Buyer: No person shall buy whole nongame quadrupeds for the purpose of pelting, carcasses of furbearing animals, raw furs or skins from fur trappers, alligator hunters, alligator farmers, fur buyers or fur dealers and sell within the state without a current fur buyer's license in his possession while conducting business.

Fur Dealer: No person shall buy whole nongame quadrupeds for the purpose of pelting, carcasses of furbearing animals, raw furs or skins from fur trappers, alligator hunters, alligator farmers, fur buyers or fur dealers and ship or export these furs or skins from the state without a current fur dealer's license in his possession while conducting business.

Current Fee	
RESIDENT FEES	
Youth Hunt and Trap (17 or younger)	\$5.00
Trapper (18 or older)	\$40.00
Fur Buyer	\$55.00
Fur Dealer	\$400.00
NON-RESIDENT FEES	
Trapper	\$160.00
Fur Buyer	\$215.00
Fur Dealer	\$800.00
OTHER FEES	
Non-game Quadruped Breeder	\$50.00
Non-game Quadruped Exhibitor	\$20.00

CAPTIVE FURBEARERS
Licensed trappers may hold in captivity live furbearers during the open trapping season. Such animals must have been obtained by legal trapping methods. Such animals must be released or pelted by the last day of the open trapping season (RS 56.259).

For detailed information on furbearer regulations and trapping, contact a local enforcement agent or the Lafayette regional office.

LA Department of Wildlife and Fisheries
• 200 Dulles Dr. - Lafayette, LA 70506 - (337-735-8689)

METHODS OF TAKING FURBEARERS
All animals listed as furbearers may be taken only during the open trapping season and only by means of a trap or snare. Nutria may also be taken by licensed trapper for fur and/or meat during the open season by the use of a rifle, only between the hours of sunrise and sunset (RS 56.259).

No trap, snare or other device used to capture furbearers shall be set more than one day prior to the open trapping season. No traps shall remain set after the closing day of the trapping season. All traps must be checked daily and all traps must be removed from the trapping grounds the closing day of the trapping season (RS 56.260).

Any type of trap with permanent teeth or insert teeth is illegal and cannot be used in Louisiana (RS 56.121.1).

Furbearers can be taken only with traps. Firearms are illegal EXCEPT for dispatch in a trap and as provided for to take nutria, coyote, bobcat, raccoon and opossum, which may be taken with firearms as per provisions below.

The use of dogs to chase or take furbearers is illegal EXCEPT as provided for when hunting raccoon, opossum, coyote, foxes and bobcats. Dogs may be used during the taking of nutria between the hours of sunrise and sunset. The exceptions are

opening in the top to allow bears to escape (title 76.130). Any bait used to attract coyotes or hogs will attract bears. If you catch a bear, please call 800-442-2511 for immediate assistance.

Pelting: No pelting during the closed trapping season shall be permitted at any time, except with department authorization. The sale of carcasses of nongame quadrupeds is prohibited during the closed trapping season, except with department authorization. These provisions do not apply to nongame quadrupeds raised on farms.

NUTRIA
On WMAs and private property, nutria may be taken recreationally by licensed hunters from Sept. 1 - Feb. 28, during legal shooting hours by any legal hunting method with a daily limit of five (5). **EXCEPT** nutria may be taken on Atchafalaya Delta, Salvador/Timken, Pointe-Aux-Chenes and Pass-a-Loutre WMAs from Sept. 1 to March 31. When taken with a shotgun, non-toxic shot must be used. On WMAs during waterfowl seasons, nutria may be taken only by the use of shotguns with shot not larger than F steel; during gun deer seasons on WMAs, anyone taking nutria must display 400 square inches of “Hunter Orange or Blaze Pink” and wear a “Hunter Orange or Blaze Pink” cap or hat. Recreational nutria hunters must remove each nutria carcass in whole condition from the hunting area, except that nutria may be gutted. Possession of detached nutria parts, including nutria tails, by recreational hunters is illegal. Nutria harvested recreationally may not be pelted nor may such nutria or any nutria parts from recreationally taken nutria be sold, including the tail. Trespassing upon private property for the purpose of taking nutria or other fur bearing animals is punishable by fines and possible jail time (R.S. 56.265). The **Coastwide Nutria Control Program** is a separate program and is in no way related to the nutria recreational season (title 76.123). For questions on the Coastwide Nutria Control Program call the Lafayette Office 337-735-8689.

FOX, BOBCAT AND COYOTE
Foxes and bobcats may be run with dogs for “chase only” by licensed hunters. Foxes can be taken only by trappers during the open trapping season (RS 56.140). A holder of a Basic Hunting License shall only take bobcat during the time period from one-half hour before sunrise to one-half hour after sunset with approved archery equipment, shotgun, primitive firearm or center firearm. A holder of a Basic Hunting License shall not take more than one bobcat per calendar year. This regulation applies only to property that is privately owned, state WMAs, Kisatchie National Forest, and the Bayou des Ourses, Bonnet Carre, and Indian Bayou tracts owned by the Corps of Engineers, but does not apply to state wildlife refuges or other federally owned refuges and lands. On state WMAs the take of bobcat is restricted to those open seasons on the WMAs which require the respective legal weapons noted above (title 76.111). Bobcats cannot be pelted or sold without a trapping license. Holders of hunting licenses may take coyotes year round during legal daylight shooting hours. The running of coyotes with dogs is prohibited in all turkey hunting areas during the open turkey season. Coyote hunting is restricted to chase only during still hunting segments of the firearm season for deer.

RACCOON & OPOSSUM HUNTING: NO CLOSED SEASON
Raccoon and opossum can be taken at night by one or more licensed hunters with one or more dogs and one .22 rimfire rifle. No bag limit for nighttime or daytime raccoon or opossum hunting during the open trapping season except on certain WMAs as listed. The remainder of the year, raccoon and opossum bag limit for daytime or nighttime is two per person per day or night. No one who hunts raccoons or opossums as prescribed above shall pelt or sell skins or carcasses of raccoons and opossums taken during the open trapping season unless he is the holder of a valid trapper's license which shall be required in addition to his basic hunting license. Hunting from boats or motor vehicles is prohibited (RS 56.116.1).

BOBCAT & RIVER OTTER: TAGGING REQUIREMENTS
To obtain federal approval to export bobcat and river otter outside the United States, the Louisiana Department of Wildlife and Fisheries is required to ensure that only Louisiana trapped river otter and bobcat are tagged with Louisiana CITES tags. To accomplish this, a special possession tag will be made available to fur buyers, fur dealers and trappers.

A blue tag for river otter and a red tag for bobcat must be filled out by the trapper at the time the pelt is first sold. The information required includes trapper name, trapper license number, parish caught in and date trapped. No bobcat or river otter pelts shall be purchased from a trapper or be in the possession of a fur buyer or dealer without a possession tag until they are submitted to the department in exchange for CITES tags. Dealers shall not purchase bobcat or river otter pelts without an accompanying possession tag.

No bobcat or river otter pelt shall be shipped from the state without a CITES tag attached. Dealers will obtain CITES tags for bobcat and river otter by providing the department with one completed possession tag for each pelt to be shipped from the state. It shall be illegal to falsify possession tags or attach Louisiana CITES tags to out-of-state bobcat or river otter pelts. Once possession tags have been received and counted by department personnel, CITES tags will be mailed immediately. Trappers shipping bobcat or river otter out of state must provide completed possession tags to the department in order to receive CITES tags (title 76.129).

SHIPMENT OF RAW FURS
No **fur trapper or fur dealer** shall transport or ship raw furs out of the state without first obtaining an **official out-of-state shipping tag** from the department. No fur buyer may transport or ship raw fur or skins out of the state except to a licensed non-resident fur dealer (RS 56.253). For information regarding the shipment of alligator meat, parts or skins call the Lafayette Field Office at 337-735-8689.

WILDLIFE MANAGEMENT AREAS
Trapping: Self-clearing permit and WMA Access Permit are required for trapping on a WMA. Other special trapping exceptions are listed under respective WMA season schedules. All traps must be run daily. Traps with teeth are illegal. Hunter orange or blaze pink is required when a deer firearms season is in progress.

Raccoon Hunting (Experimental): Self-clearing permit and WMA Access Permit are required for raccoon hunting on a WMA. A licensed hunter may take raccoon or opossum, two per person per day, during daylight hours only, during the open hunting season on WMAs. No bag limit for nighttime or daytime raccoon or opossum hunting during the open trapping season.

Requests for information on maps, permits and WMAs may be directed to any field office:

TRAPPERS
When you purchase a trapping license, you are investing in your future and the future of the Louisiana fur industry. License fees are placed in a dedicated fund and are being used to achieve two major goals:
1. To provide for PUBLIC EDUCATION concerning the role of trapping and hunting in wildlife management and the role of furbearers as a sustainable natural resource.
2. To develop FUR MARKET STABILITY & ENHANCEMENT through promotion, advertisement, and new product development.

A nine-person council made up of trappers and land managers meets quarterly with the Louisiana Department of Wildlife and Fisheries to ensure the wise use of these funds. The Fur Advisory Council works to improve the future for fur resources, trappers, and the industry. For more information contact the Lafayette regional office at 200 Dulles Dr., Lafayette, LA 70506.
